MEMBERSHIP INFORMATION

The CU Herb Society began in October, 1975, when eight local women decided to study the lore and uses of herbs. As their interest developed and their membership grew, they established a garden at Meadowbrook Park in Urbana. This garden has evolved over time yet remains a lovely gem in the community, maintained by Herb Society members. Throughout the years, some of the activities, locations, and of course, members have changed, but the premises on which the Herb Society were founded remain:

1. To study the history, cultivation and use of herbs;
2. To encourage interest in herbs;
3. To develop and maintain the Meadowbrook Herb Garden, which is open to the public;
4. To encourage and support sustainable environmental practices; and

5. To encourage the protection and preservation of at-risk and endangered herbs.

The C-U Herb Society is open to anyone interested in finding out more about herbs, herbal lore, culinary and medicinal uses of herbs. Meetings are held at **7 PM on the first Wednesday of the month.** During the winter months we meet virtually, and during the summer months we enjoy visiting local gardens.

For more details on meetings, including the meeting location, check out our Facebook event page or website at cuherbsociety.org. You can also contact us via email at cuherbsociety@gmail.com.

Our newsletter, *Sprigs of Thyme*, keeps herb society members informed of upcoming activities, such as workshops, annual potluck, field trips, and plant exchange.

The herb garden at Meadowbrook Park in Urbana, designated an official **Illinois Herb Garden**, has been maintained by members and friends of the CU Herb Society. We also donate gardening-related books and materials to area public libraries, and conduct an annual sale of herb plants. In addition, we provide mini-grants annually to C-U area schools and non-profit community organizations.

The C-U Herb Society is a not-for-profit organization. We are affiliated with the Urbana Park District. We do not endorse any claims regarding medicinal or nutritional uses of herbs.
